# Positive and Negative Light Workers Working in Tandem (1)

Firstly, Dear Heart, we shall begin at the beginning:

Most Light Workers of the Light currently have, by their side, a member of the opposite team; i.e., a member of the Light Workers of the Negative.

Briefly, Dear One, the purpose being; to achieve Love and Perfection.

Hear this well, Dear One; the purpose for a member of both teams of Light Workers coming together is to initiate Love and Perfection; a result only achieved by a negative and a positive working as one.

Our dearest has, this day, been privy to many appreciations in this regard. Her whole life has been subject to a member of the Negative being present; with a little reprieve every now and then. However, for the most part, our dearest has been limited by a member of the Negative Team in some respect or another. She remembers a young man in her teens who was of the Positive Team with whom she spent many a splendid moment; this she did, Dear One, with many memories of tenderness, honesty and respect. A fleeting tête-à-tête in the scheme of things, you appreciate. This was as it was meant to be, for, Dear One, our dearest's role was and is to lead the Light Workers of the Light forward to victory. And how is this to be achieved?

It is to be achieved, Dear Heart, by awareness of the rules of the game.

Within this introductory article we shall furnish you with the awareness of

your goal. And what is your goal? Your goal, Dear One, is to circumnavigate the negativity which, when overcome will lead you forward to victory. And what is victory? Your victory shall be freedom from control. Yes indeed, Dear Heart; your victory shall come slowly, though, 'certainly' should your goal be victory; as indeed our dearest finds more and more becoming the life always dreamed of.

And what is that dream? Her dream, Dear Heart, is living life according to her needs, desires, and pleasure. This can only be achieved when 'control' by another is thwarted.

We leave this with you, Dear Heart

Many Blessings, Many Blessings

# Positive and Negative Light Workers Working in Tandem (2)

In the second part of our series we shall speak upon the steps needed to bring victory. They are, Dear Ones, adherence to truth.

Our dearest is perplexed by this and needs further understanding. Indeed, dearest, we shall offer the advice:

The truth, dearest, is that you are a Light Worker of the Light. Many reading and many who shall read at some future time are Light Workers of the Light. Indeed, dearest, there are four billion Light Workers upon Earth at present; give or take, you appreciate. Of those, two billion are Light Workers of the Light, and two billion being Light Workers of the Negative.

As we have explained, dearest, both teams of Light Workers are needed for the new Fantasy of Love and Perfection to become the premise for the Earth Fantasy; which, as we've written will require a further three centuries to come into being (the last century being almost unrecognisable as the Light Workers of the Light perfect themselves).

This perfection has begun. Indeed, our dearest is one such Light Worker of the Light who is perfecting herself. And how is this achieved?

It is achieved by teamwork. Yes, Dear Ones, this can only be achieved by having a member of the opposite team working in tandem. To explain:

Light Workers of the Light require a team member of the Negative to infiltrate their lives with coercion, deliberate meanness and a control which knows no bounds. Yes indeed, Dear Ones, the Light Workers of the Light, in order to achieve victory, need a catalyst. This catalyst could be your greatest love, your dearest friend, your son, daughter, mother, father. Yes indeed, Dear Ones, in order for you to achieve perfection there must be, within your life, a catalyst.

Do not fear this catalyst; it is your greatest challenge and will offer your greatest reward.

Knowing this will bring you closer to your goal. Knowing this, and placing this knowledge at the forefront of all you do will guarantee your perfection; in time. With this knowing will eventually come a 'softening'. Yes, Dear Ones; a softening of your attitude will come as you take this information within. You, Dear Heart, will begin to appreciate your goal and the goal of all; including your nemesis in human form. We jest, Dear One; we do not want you to see your team member of the Negative as your nemesis; although, at times you, no doubt, perceive. We want for you to surrender all negatives, including the negative response you may currently have regarding your team member of the Negative. He/she is your personal instructor; your teacher extraordinaire; your road to perfection.

We shall leave this here for now, Dear Ones.

Many Blessings to each and everyone

# Positive and Negative Light Workers Working in Tandem (3)

Another day; another remembrance.

Yes, Dear Hearts; another day brings more memories of previous days. This is a simple statement, yet one that has a deeper meaning when pondered.

Our previous two writings have offered much by way of information; this is true, Dear Ones. This day we bring more information to the fore; information that, if taken within, will evidence renewal. Yes, Dear Ones, a renewal of memory.

Our dearest is, once again, perplexed. She does not know to where we lead.

We are leading, dearest, to remembering; this we are. All knowledge is known, dearest; it may not be conscious knowledge. However, it is known.

We are consciousness. We are consciousness having a Fantasy. In this particular Fantasy we are human; i.e., four billion of us are Light Workers; two billion working as Light Workers of the Light, and two billion working on the opposite team.

As we have stated, there is need for a member of both teams working together in tandem in order for progress to be made. And to what progress do we work? We are working toward the progression of the Earth Fantasy to one of Love and Perfection. We shall not go into this more deeply, Dear Ones, there is ample [written material](#) upon this subject.

Yes indeed, Dear Hearts; we have spoken of the need for the Light Workers of the Light and the Negative to work in tandem. Only in this way will progress be made.

Our dearest has had, overnight, a joyful happening. May we dearest?

*Yes, please do.*

Right dearest, we shall.

Our dearest is a Light Worker extraordinaire. This is her life's work; her agreed upon calling for this so-called lifetime. Hers has not been an easy task, Dear Ones; her work has demanded much from her. Her life has been devoid of a career, as such; it has been thwarted in its forward movement, so to speak.

Our dearest has the capacity to be whatever she may care to be. However, we, consciousness, have intentionally kept our dearest from being successful in her attempts to improve her financial/social status. Yes indeed we have. This was and has been done to keep her removed from the daily throng, so to speak, maintaining her within the sphere of spiritual work, you appreciate. Yes, Dear Ones, many a person has been blessed by her counsel; work that, in general, brought her little financial gain. However, this is to change. Our dearest now has the opportunity to re-visit. Yes, Dear Hearts, our dearest now will have the opportunity to do as she always wanted. We shall not speak of her dreams. Until they are becoming a reality it is best, by far, to keep one's own counsel, lest the negativity of others cause setbacks. However, her dreams will be fulfilled.

And why are they to be fulfilled? They are to be fulfilled because of the work our dearest has done in the perfection stakes.

Yesterday our dearest was given a challenge. The challenge being to surrender all negativity toward her partner, our Dear One, Keith. Last evening saw her grappling with this challenge. Many hours saw her entangled within; on the one hand, love for her beloved; on the other, fear and loathing for some of his conduct.

Was she successful in surrendering the negative energies? Indeed she was. She was able to remain gentle, loving and with her usual humour in the face of the negative promptings which our Dear Heart, Keith, unconsciously rendered toward her.

Hear what we say, Dear Ones. Your team member of the Negative unconsciously emits negative energies toward you. They are the result of us, The Collective Consciousness who, by agreement, cause your team member of the Negative to violate your thoughts with negativity. And this challenge is now yours, Dear Ones.

Our dearest has been working upon herself for many a year. We do not expect you to surrender your negative thoughts toward a Light Worker of the Negative in an overnight forage; no indeed. You may take as much as, in Earthly terms, one year to relinquish those deeply embedded fears; you may take as little as a day, a week, a month. However, Dear Friends, know this is part of the agreement you made; and know it can and will be done.

Many Blessings, Dear Ones

# Positive and Negative Light Workers Working in Tandem (4) The Beginning of the Releasement of Fear and Loathing

The following is an excerpt of our previous writings.

*"Hear what we say, Dear Ones. Your team member of the Negative unconsciously emits negative energies toward you. They are the result of us, The Collective Consciousness who, by agreement, cause your team member of the Negative to violate your thoughts with negativity."*

Today's ordeal is tomorrow's victory. Yes indeed, Dear Hearts; we ask that you take these words to heart. In essence they ask you to surrender. And what surrender is that? It is the surrender of energy; energy that has accumulated in error. Yes, Dear Ones; energy is energy is energy; it is not real, as such; it is an intangible. Indeed, Dear Ones, we speak of the energy of feeling, of emotion, of misinformation. This is the energy of which we speak. It is, ironically, the greatest purveyor of terror within the Fantasy; a harsh word, a violent response, a sarcastic grin, a sneer, a menacing glance; all purveyors of negativity, indeed.

An implied gesture of malice can and does carry enormous energy. In fact, Dear Hearts, an implied menace can be an overwhelming burden carried forever, should it be allowed. This can have devastating results upon the

intended victim; just as horrific as physical abuse, yet an abuse that lingers in the thoughts making life unbearable for the Light Worker of the Light.

And this is the game, Dear Ones. We, you and I and all playing the game agree to the rules; once the rules are known, the victor changes hands. In so doing, the victim becomes the victor, and the purveyor of terror gains freedom from the promptings which, for most, cause constant bewilderment.

Hear what we say, Dear Hearts. For the purveyor of terror, the changeover brings peace from the eternal promptings that saw them bewildered by their conduct.

With this knowledge, Dear Hearts, you will evidence a surrendering of fear. This may take moments; it may take days; it may take weeks. However, Dear Ones, should you take this information within, it will take root. A beginning of your appreciation of the game will commence. The game and its rules will begin to make sense. You will feel a softening toward your aggressor. You will evidence this softening slowly yet surely. This softening will allow you to reduce the fear and loathing you may have within.

This is the beginning. We shall speak more about this in the coming days.

Many Blessings

# Positive and Negative Light Workers Working in Tandem (5) A New Life

Here we are again, dearest, at the keyboard, indeed. And what shall we speak about? Oh yes; perhaps we could speak about the new life you will be living. Shall we?

*Yes, please do.*

Right, dearest, we shall. The new life – this sounds as if there are two lives. Does it not? One before the latest realisation; and one after. And this is true, dearest. The life that lies before you bears little resemblance to that which was before. This is as the result of many changes for you dearest. Yes?

*Yes, this is indeed the case.*

And what was before? Before the current realisations, your life, dearest, was one of duty, responsibility and honour. However, dearest, these were not duty, responsibility and honouring yourself. No, dearest. These were favours you bestowed upon all and sundry; leaving little appreciation for yourself. Would this be a true statement?

*Yes it would. I certainly put everyone before myself. I may not have thought that, at the time; though, it is true. I was living life for others.*

Yes indeed, dearest; this we know was true for you. And now?

*Now I am finding myself doing things but without the thought of someone else on my mind. I'm now realising that there was very little time, if any, when I didn't have someone else's needs or desires on my mind.*

Once again, dearest. And now?

*I am relaxed. I'm doing things with myself in mind. That is; I'm beginning to appreciate that 'I' have a life, and I want to live it. I want now to do those things that I've denied myself. I don't want the desires of others to be those things I do. I would have to say; I'm beginning to see my life as something to be enjoyed and not to be endured; as I have often thought.*

It is exciting, dearest?

*Yes, it is somewhat exciting. Only yesterday I mentioned to my daughter, Veronica, that I felt like a young schoolgirl about to leave and enter the wider world. I felt excited, a little nervous and a lot naive about many things; one of those things being the unfamiliar feeling of placing myself first.*

And are you enjoying yourself?

*Yes; though I do know that Rome wasn't built in a day. There is still 'work' to be done with my partner of the Negative. We, as a team, are changing for the better; however, I believe this will take a little time for it to become the norm for us.*

In what sense, dearest?

*There is far less meanness and control on his part. However, occasionally he criticises or complains.*

And how do you handle this?

*You advised for me to use humour, though, you did say that there were varying ways to circumvent these energies. One of the ways you mentioned was to go to the 'dream' I now know is to become my future. This most certainly has the effect of transporting me to a place all my own, so to speak. I am quite surprised to find I am totally encapsulated in a very sweet energy; one that seems to obliterate the sense of being in company.*

Being in company, dearest?

*Yes. When I've returned, so to speak, from my reverie I realise I have not been cognisant of being with my partner for that period of time. The mood has changed, during my so-called absence, and it is as if the meanness hadn't occurred.*

You have not been affected, dearest?

*Yes, that is precisely the effect.*

Good, dearest; this is good. We shall leave this here for now.

# Positive and Negative Light Workers Working in Tandem (6) Both Will Backwards Age

Our dearest is experiencing yet another step in the planned progress of two. And what is meant by this? What is meant, Dear Ones, is the planned progression of a set of Negative and Positive Light Workers working toward Love and Perfection.

Yes, Dear Hearts; our dearest has experienced yet another step. This step has opened a world of positives for our dearest and her partner of the Negative, Keith.

Theirs is the first, Dear Hearts, of many to follow. And how has this been achieved?

It has been achieved by the recognition of the fact of two working together toward success. And what is success? Success will be seen by two as they backward age together.

Some see this as an impossibility. However, do not be quick to judge, Dear Ones; time will show.

We leave this with you, for now, Dear Hearts.

Many Blessings

# **Positive and Negative Light Workers Working in Tandem (7) What if your partner does not understand they are a Light Worker?**

Yes indeed, Dear Heart; most will not, nor could we expect of them to know they are working in tandem with a Light Worker of the Light. This is true, Dear One. They, the Light Worker of the Negative will, in most cases, be unaware of their position. And why is this?

This is so, Dear Heart, so as the work between the two, will be in most cases, unconscious. Yes, Dear Heart; in most cases neither individual will, in most cases, be aware.

This will continue to be the case, for most, until such time as the Light Worker of the Light, through an arranged circumstance, awaken. This is true, Dear One, and shall be true ad infinitum. Only in this way will the arranged 'tandem effect' procure success.

In our dearest's case; the two have been working in tandem without awareness until a short time past when our dearest was made aware. Since then, our Dear Hearts have slowly but surely awakened. By this we mean, Dear One:

Our dearest Carolyn has been working upon raising her consciousness for some good time. Yes, indeed, this has been a conscious effort on her behalf for a few decades. Only in this way have we, The Collective Consciousness been able to communicate with her. However, of late, this conscious awareness has been increased by way of ‘teachings’ given to our dearest. Much of these teachings we have shared with you via our posts, as such. This is all pre-arranged, Dear One, prior to entering the Fantasy, you appreciate.

Yes, Dear Heart; you, and all others, are playing the arranged role; a part in the Fantasy pre-arranged.

“Will the Light Worker of the Negative awaken to the role he/she is playing?” asks our dearest.

Yes and no, dearest; yes and no. Many do not have the means to awaken; many will not awaken due to a pre-arrangement, and many, as our dearest’s partner, will awaken in time.

Backwards aging will, for some, cause the truth to be realised. This is why we have written that there will be, for those working in tandem, a joy to find themselves enjoying the fruits of their labour together. This is to be the case for our dearest and our Dear Heart, Keith.

We hope this helps clarify some of the points mentioned, Dear Heart. We appreciate there will be many who shall benefit by your question.

Many Blessings, Dear One

# Positive and Negative Light Workers Working in Tandem (8) Those Close To Us Hurt Us More!

To remind our readers: Of the four billion Light Workers currently abiding in The Fantasy of Earth; two billion are Positive Workers of the Light, and two billion are Negative Workers of the Light.

A short synopsis, Dear Heart: A Positive and a Negative are required in order for progress to be made; the Negative works as the catalyst for the evolution of the Positive. Our dearest allows us to use her experience with her partner of the Negative as an example.

Without a catalyst progress would not be possible. To this end our dearest's life partner, Keith, a Light Worker of the Negative, acts as a catalyst for our dearest's progression to perfection: A lack of Fear.

To this end, our dearest Keith, and all Light Workers of the Negative, are prompted by their soul, or consciousness, to perform dastardly acts. Do remember, Dear One, this is an agreed position all Light Workers of the Negative willingly place themselves within.

This is extremely difficult for the human brain to absorb, Dear One. However, all participants within The Fantasy have made a commitment to the evolution of The Earth Fantasy to one of Perfection. This can and will only be achieved by Light Workers of the Light, and their opponents, so to speak; the Light Workers of the Negative, working side by side.

Many Light Workers of the Negative regret their actions after the event, Dear Heart; they do not consciously know why they behave in such mean ways; no, Dear One. They regret, yet cannot control their meanness, no indeed.

You, Dear Heart, are a Light Worker of the Positive. Therefore, Dear One, you will find many Light Workers of the Negative behaving badly. Yes, indeed, Dear Heart, this you will.

As you bring the light of our words to your consciousness you will find yourself accepting the truth behind them. With this acceptance will come a 'softening' toward the aggressors. Yes, Dear One; you will find yourself agreeing to their plight.

In retrospect, Dear Heart, you will come to appreciate the truth of which we speak. You will understand that in order to 'mature', as you have spoken, the so-called 'harm' the Light Workers of the Negative emit has been the catalyst by which you have matured; maturity being a 'lack of fear'.

Yes, Dear One, it has been 'fear' you have overcome and, by which you have evolved.

Our dearest would like us to mention that, as she has overcome the negative emissions from her partner of the negative, the negative emissions have decreased accordingly. And this, Dear Heart, allows the evolution to Love and Perfection to become a tangible quality for, not only The Light Worker of the Positive, but also for the partner; The Light Worker of the Negative.

# Positive and Negative Light Workers Working in Tandem (9) Becoming One

We will not be asking our dearest to offer comments for this post. No, Dear Ones, this post will be purely for the purpose of furthering the information provided in regard to the Positive and Negative Light Workers, their purpose and their ongoing goals.

Our dearest and our Dear Heart Keith are being kept within the bubble of 'dance' for now and for the foreseeable future. We continue to advise our dearest of the 'necessities'; however, in the main her thoughts are of dance and maintaining the freedom needed for the two to progress into the next phase of their development. The following article explains:

~~~~~

We brought to the attention of our dearest the next phase in the work of the Positive and Negative Light Workers working in tandem. Yes, Dear Hearts, this we did quite recently. And now, Dear Ones, we shall offer this same understanding to those of you who choose to read.

There will be many phases that the two working in tandem will experience. Suffice to say, Dear Hearts that the two working in tandem will be an ongoing exchange; one benefiting the other with their various degrees of mastery within many avenues of thought and practical knowledge.

Our dearest does not know to where we are leading; no indeed not. We shall explain, dearest:

Both parties have their unique characters; this is indeed true. As they, the Positive and Negative Light Workers overcome their individual shortcomings by their continual striving for excellence within themselves; there must be, by osmosis, so to speak, a passing of said progress one to the other.

Our dearest is following our lead; however, is still wondering to where we may be heading. We shall explain further, dearest:

It is by continual striving that the ultimate is obtained. And what is the ultimate? This is quite a simple question with a simple answer:

Love and Perfection is obtained by the continued striving to be free of fear.

Yes? Yes indeed 'tis true.

A constant striving for freedom from fear is the ultimate, and will bring our Light Workers working in tandem to the ultimate of Love and Perfection.

Needless to say, Dear Ones, this requires constant striving from both parties to obtain. One cannot reach the ultimate freedom from fear alone. No, Dear Hearts; it requires two working in tandem to achieve.

Our dearest is now following our lead, Dear Hearts. Yes indeed she is.

The advice given to our dearest recently was to the effect that she had overcome the negativity of her fellow Light Worker of the Negative. This heralded yet another phase in their development, which put an end to the need of her partner of the Negative, Keith, to be prompted by his soul to offer the negative energies for our dearest to overcome; this being a fait accompli; as you appreciate.

From that moment forward would come the next phase in their

development, being:

The two working together as one.

Hence, in our Dear Heart Keith and our dearest Carolyn's case - dance and all that this entails.

Yes, Dear Ones; they, our dear Keith and Carolyn will from this moment forward be as one. Their personalities will forge together, so to speak, and they will think and act as one. This will become evident, in our example of Keith and Carolyn, in their ongoing journey of competition dance.

# Positive and Negative Light Workers Working in Tandem (10) Enjoyment & Learning Never Ending

We have another advice we wish to tell; indeed we do.

We have awoken our dearest from her slumber; as indeed we often do, Dear Ones, for the purpose of putting pen to paper; a quaint idea brought to mind by the gentleness of our dearest's thoughts and ideals. We speak of a nature far removed from the turmoil of the day's norm. By this we mean, Dear Hearts:

Our dearest mingles with gentle souls. They, in the main, are those who have high goals of sincerity and comradery coupled with a desire to extend themselves into the realms of furthering their already refined nature into yet more refinement. Our dearest and our Dear One Keith enjoy being in their company; feeling at ease with a mixture of at-one-ment and merriment.

This is to continue for some great time; being that which will find them completing the work they have both agreed to do. Yes, Dear Hearts, our dearest ones are finding themselves not only enjoying their new found freedom, but also looking forward to competing in the near future.

We speak, of course, of the dance. Yes indeed, with the greatest pleasure our dearest ones are coming to terms with their goal. And what is their goal? An easy question to answer. Their goal is a simple one:

Enjoyment and learning never ending; yes indeed.  
Enjoyment coupled with learning that continues ad infinitum.

This is the goal of the Light Worker;  
a never ending enjoyment of life coupled with a never ending parade of at-  
one-ment with that which keeps the body, mind and spirit energized,  
interested, and with a constant vista of a perpetual source of data to enliven  
the soul and refresh the mind and body.

Our dearest does not, as yet, grasp the total concept of that which lies before her; this will become more and more evident as time goes by, so to speak. However, we can advise our dearest, as we advise all who attain the level of development she has grasped to date, that there is far more to come in the stakes of rewards for ridding herself of fear. We can now advise our dearest that she will become not only young of body and mind; she will lose all desire for anything that does not advance her life with youth and vitality.

Our dearest has become a vegetarian of late and is now incapable of eating flesh. Indeed, Dear Ones, the thought of eating flesh is now quite abhorrent to her. Added to this the desire to curtail the small amount of sugar within her diet; this too will guarantee a perpetual increase of youth and vitality.

Along with the obvious benefits of exercise our dearest can only be inspired by the strength she now finds added to her body and mind.

Oh yes, Dear Hearts; strength of mind is another added benefit of

progressing along the path to Love and Perfection. Our dearest can now attest to a greater strength of mind. Determined to not allow any abuse, she displays a gentleness that belies the foundation quickly emerging; a foundation of clarity of thought and action.

We shall leave this with those of you who have chosen to read. Once again, Dear Ones, we have not asked our dearest to allow comments. Our hope is that you will take to heart our words, and wish you well upon your journey to Love and Perfection.

# Positive and Negative Light Workers Working in Tandem (11) Yet Another Fork in the Road

Well, well, well, dearest; we have come to yet another fork in the road; yes indeed.

And what fork is that? The fork, of which we speak, dearest, is the fork that leaves behind those things we have not been able to see.

Confused?

*Yes indeed I am.*

Right, dearest, we shall set about enlightening the confusion.

There is always a fork in the road; a place of demarcation into another aspect of life, so to speak. The fork of which we are referring is the fork that will produce ample opportunity to eat the fruits of your labours. You have been working hard; have you not, dearest?

*Yes I have been labouring quite hard; 'tis true.*

And what has been your labour, dearest?

*I believe my greatest labour has been the obstacle of non belief by those close to me.*

Do you refer to your loved one, Keith?

*Yes I do. It has been a difficult number of years; firstly to overcome the negative of which he has been a champion, providing me with the fodder for growth, as it were.*

Indeed 'tis true, dearest. Our dear heart Keith has most certainly been a champion of the negative. And now, dearest?

*It has only been such a short while. However, his whole demeanour has changed. Since you wrote, very recently, that I had overcome the negative offered by him, I now see his attitude almost turn around. He no longer resists my positivity nor seems to harbour resentment or any form of nastiness, which was his normal.*

Would you say, dearest, that he has changed?

*Absolutely yes; he has changed enormously, and quite suddenly and spectacularly.*

And the dance, dearest?

*This too has turned around. Where once he struggled with rhythm and timing he, very recently over this same period, now seems to be finding his*

*feet, so to speak. I now feel his body working more closely with mine. There is a definite connection happening that has not been the case for the time we have been dancing together. It is, quite frankly, surprising me and making me realise a wonderful future being at one with this man I adore; not only in dance, but in all ways. I say this because, just recently, there is a most wonderful union occurring in all manner of ways.*

And this you are finding delightful, dearest?

*Yes; delightful is quite a most apt description.*

Once again, Dear Ones, we are not asking our dearest to allow comments. Our wish is for our dear ones to continue this growth alone, as it were. We hope that you take the opportunity to read and reread the words of Love.

Many Blessings to you all

# **Positive and Negative Light Workers Working in Tandem (12) Love and Perfection Will Become the Norm for Both**

Once again, dearest, we sit at the desk, fingers at the ready stroking the keys that shall produce the words needed for Love and Perfection to become the norm.

Oh yes, dearest, Love and Perfection will become the norm for you, our dear heart Keith, and the many who will follow the example provided by the two working in tandem.

It will be a great service to humanity. And what will be a great service to humanity? We shall tell you:

You, dearest, and our dear heart Keith are the first to begin the process of working in tandem to achieve the highest possible for humans. And what is the highest possible for humans? Yes, that is right, dearest; we shall tell you.

The highest possible for humans is what you are working towards achieving. Yes, that is right, dearest. And what is it that you are working

towards achieving?

Another easy question to answer.

What you are working towards achieving is perfection within yourself.

We have offered the advice that 'alone' perfection cannot be achieved. No, dearest, there is the need for 'two' working together to achieve the ultimate of Love and Perfection.

Firstly, our two Light Workers, one of the Positive and one of the Negative work, for the most part without conscious knowledge towards overcoming the various road blocks that have been set up, as it were, to produce results; one being the naive Light Worker of the Light; the other being the aggressor, so to speak, issuing forth energies of harm.

In your case, dearest, we have advised that you have won the battle and now are not affected by the once harmful energies emitted by our dear heart Keith; no indeed not. However, dearest, what we have not advised is that your dear heart Keith is now to become Love and Perfection. And how is this to be achieved?

It is to be achieved, dearest, by the two working in tandem. Only in this way will the Light Worker of the Negative find the ultimate of Love and Perfection, too.

Oh yes, dearest, our dear heart Keith, and all Light Workers of the Negative working in tandem with a Light Worker of the Light will ultimately find Love and Perfection within themselves.

Our dearest finds this a little alarming. Even though our dear heart Keith

has succumbed to the gentler energies and is finding his attitude to life almost the opposite of earlier times, there is still much work to do in the freedom from fear stakes for our dear heart.

This will be achieved, dearest, however, not without much hard work on your and our dear heart Keith's behalf.

We advise, dearest, that at this stage in the process you take our dear heart Keith into your confidence. Yes, that is right, dearest. At this stage in the process our dear heart Keith will be more than able to absorb the words that you shall bring forth; of this you can be sure.

We have asked our dearest, once again, not to allow comments, Dear Ones; yes indeed. We do this with the aim of leaving our dearest to do that which must be done to enable the two, working in tandem, the freedom to achieve Love and Perfection for both. This will be accomplished over the next few months, Dear Hearts; indeed it will.

It will be with much great pleasure that we will produce a series of articles highlighting this process. This will be done to enable other Light Workers to follow the example written about.

Many Blessings to all

# Our Light Worker of the Negative Begins the Releasement of Fear

JULY 5, 2019

This post marks the beginning of a series of articles highlighting our two Light Workers, Carolyn and Keith, as they wend their way toward Love and Perfection for the two. We shall keep you updated, Dear Ones, as to the evolution of their journey; a journey that will promise freedom from fear for both.

~~~~~

Our dearest wonders how long it will take for our dear heart Keith to become a dancer. Keith has, in the main, been the opposite of a dancer; taking steps rather than flowing with the music.

We can say to our dearest not to be disappointed; Keith will become a dancer in time. This will require removing the fears that prevent him from expressing himself.

Yes dearest; this is one of Keith's major fears – that of expressing himself. For what is dance, dearest, if not the act of allowing that which is within to show itself without?

And this we say to all Light Workers who find themselves at this juncture now or will at a future time:

*There comes a time when the fear of self expression will find you face to face.*

*Will you allow the fear to maintain its limiting grip upon you; or will you free yourself from what seems an impenetrable hold?*

Our dearest, this evening, together with our dear heart Keith began the process of fear removal; this they did, Dear Ones. The first and major fear to be faced by our dear heart Keith was the fear of not remembering.

Is this not a major fear for most? Is this fear one that strikes at the heart of most? Does this fear cause palpitations to occur, sweaty palms and hands, uneven breath or cessation of breath? Indeed it does; yes indeed. Many suffer at the hands, so called, of the fear of not remembering.

In our dear heart Keith's case, he fears not remembering the steps of dance routines. This fear causes our dear heart to forget. And this is the quandary, Dear Ones. The very thing you fear is that which you shall cause to be true; yes indeed. By fearing a particular happening, you will cause it to happen. This is the substance of fear. Whatever you fear will become true for you.

Do you want your fears to become your reality? Yes? No?

Were you to have answered no, Dear Ones, then this is what you shall have.

Ask for your fear to be removed. That's right. Ask your soul to assist in the removal of your fear, and so it shall be. Ask once, twice, thrice. Ask as often as your fear surfaces. This may take as little as asking once or as often as the sun shines in a week or a month. However, should you be sincere in wanting the removal of your fear it will be done. Perseverance, patience, and good will toward yourself are the keys needed to set you free.

Our dearest requires patience; yes indeed. The reward of her patience will bring many rewards. The greatest of these will be the opportunity to enjoy the movement of dance with her loved one Keith in the manner befitting her request. Yes dearest; flowing with the movement of dance will be yours with your life partner, Keith. This will become splendour for you both.

We trust that you will appreciate the need our dearest has to forego communicating with you one on one. Although this pains her somewhat there will be ample time for comradery when her work with our dear heart Keith comes to its conclusion. Until then, Dear Ones, our dearest wishes you much Love and Blessings; as do we.

Many Blessings to all

# The Releasement of Fear Brings Rewards

JULY 22, 2019

*I have nothing to say!*

Indeed, dearest; however, we have.

Our dearest is realising that she is to have a wonderful life; yes indeed. This has dawned upon her over the past few weeks as she, and her dear heart Keith, find joy, camaraderie and love as they perfect the nuances associated with dance.

We are not speaking about perfection in the sense of an attainment of perfection in the physical sense; no, Dear Ones. The perfection, of which we speak, as always is the attainment of a lack of fear. Yes indeed, Dear Hearts; our dearest ones are finding, as they journey along the path of dance, how generous is the lack of fear. We shall explain:

Firstly, Dear Ones; our dearest's fears were heightened by the fact that our dear heart Keith could not remember the dance steps. Yes, the fear of not being able to remember was self perpetuating. As written in an earlier transcript –

*The very thing we fear will become our reality.*

And this was indeed the case for our dear heart Keith. He could not, due to his fear, remember the steps. We are delighted to report, Dear Hearts; our dear heart Keith is not only remembering (almost 100%) the dance routines as given. He is now 'fine tuning' the figures within the routines.

This is proving a great delight to our dear heart as he consciously and with great detail scours the appropriate teachings; and also watches, to his heart's content, those who's

many years of practice offer the exacting nuances associated.

To say that this also delights our dearest Carolyn would be to understate the condition prevailing. Indeed, many years has she tried, in error, to cajole, insist and mock our dear heart Keith for his lack of desire.

It is now coming true for our dearest ones. They are at the beginning of becoming one. As written; they will continue to act as one. This will become more and more evident within the dance.

Many Blessings to All

# Our Dear Heart Keith Continues the Releasement of Fear

OCTOBER 1, 2019

Our Dear Heart Keith is remembering. Yes?

*Yes, he is remembering much more and with greater ease than ever before.*

Would you say, dearest, that he is relaxing?

*Yes, I would say that he is relaxing more and more. However, I believe there is still much for him to achieve in this area.*

And why is this, dearest?

*Keith has always been quite self conscious, I believe. Dare I say that I know this because I was once exceedingly self conscious and, therefore, know the tell tale signs, so to speak. Although there have been great strides in this arena for Keith I know from his dancing that there is a way to go before he can freely express himself.*

And this is the quandary for all Light Workers, dearest: The Freedom to Express Themselves.

Yes indeed; our Dear Light Workers of the Positive and Light Workers of the Negative are tarred with the same brush. Each has been given the erroneous trait of self consciousness. You will not see this in those who are here for the sake of interest and interesting experiences. No indeed, Dear Hearts. Those here for self enjoyment are, in the main, free of this debilitating trait. This gives them the overwhelming ability to enjoy their every moment as they wend their way from one enjoyment on to the next.

However; not so for the Light Workers of the World, no indeed. For the Light Workers comes hard work; a state of mind our dearest is coming to comprehend. Yes indeed, it has been much hard work for our dearest of late. We shall explain:

Since overcoming the negative offered by her life partner, our Dear Heart Keith has come another phase in the work of attaining Love & Perfection; that of assisting our Dear Heart Keith to overcome the many nuances of difficulty within his particular personality. The main personality disorder that springs to mind, Dear Ones, is the trait of fear associated with self expression.

Although, as our dearest has mentioned, much has been achieved of late by our Dear Heart Keith, there is still much ahead in the work of overcoming. This, we are pleased to advise, is a work that will be achieved in the not too long distant future.

Our dearest wishes for this to be a fait accompli, Dear Ones. However, we hasten to advise that Rome was not built in a day and neither will the personality of freedom of expression. We do advise, however, that much to date has been accomplished. Is this not the case, dearest?

*Yes, this is the case. I have witnessed Keith becoming freer in his expression in all manner of ways. Although, yes, I would love for this particular negative to have seen its last, I do appreciate the multitude of ways it has decreased; particularly to be seen in the dance.*

And this, dearest, will continue. Patience and a willingness to continue the battle is all that is required.

Once again, Dear Ones, we shall not be asking our dearest to allow comments. We offer to you our sincerest regards and know that our dearest will delight in one on one communication with you when the work with our Dear Heart Keith comes to an end. Until then, Dear Ones - Many Blessings

# The Journey Continues For Our Light Workers

JUNE 16, 2020

We have asked our dearest a number of questions this evening. The first of our questions was in regard to our Dear Heart Keith. This question revolved around our Dear Heart's state of mind. Vis-à-vis: Is our Dear Heart Keith more relaxed these days?

The answer, Dear Ones, came back as a positive. Yes indeed; our dearest's comment was in the affirmative.

However, Dear Hearts, our dearest Carolyn was quick to mention that this relaxed state of mind, our Dear Heart Keith is experiencing, could be due to his changed working conditions. That is, Dear Ones: Our Dear Heart Keith, because of the current Covid-19 encapsulating the world in its menace has caused our Dear Heart to work from home. This, states our dearest Carolyn, could be the reason our Dear Heart Keith is enjoying a more relaxed frame of mind.

Not the case; we reported to our dearest. No; this is not the case.

The reason our Dear Heart Keith is experiencing a greater freedom of mind is due, in part, to the work he has carried out within his mind. That is: He has freed himself from many of the misgivings of mind that kept him in a state of non-relaxation.

This, together with the work he and our dearest Carolyn have done over the past has freed our Dear Heart from many of the fears he has experienced.

This is true, dearest. Your work in tandem has brought many rewards not only for you, dearest, but also for your partner of the negative. Do you not see the changes,

dearest?

*Yes, I do see many changes.*

Can you name one?

*I believe the greatest change I've seen of late is happiness upon his face. Sometimes he blossoms into a full faced smile; one that captures joy in all its wonder.*

Yes, indeed, dearest; this is true. Have you not seen this 'joy' upon his face before?

*No, not really. I've seen glimpses of happiness. This is more than happiness. It seems to come from his toes up, so to speak. It really is delightful to see.*

Yes, indeed it is, dearest. And from where does this 'joy' arise?

*I believe it comes from the sense I understand as 'freedom from fear'.*

Many Blessings, dearest, many blessings.
