Freedom From Fear

Finances Required For Living Longer!

ON DECEMBER 4, 2020

Our dearest has not only conceded to live free from fear and healthily, she has agreed to live longer!

This was not something our dearest felt obliged to do. However, now that she has tasted a happier, healthier lifestyle with all the benefits of being without fear the thought of living longer no longer holds any negatives for her.

And this will be the case for many as they venture forward into the state of Love and Perfection – they will experience freedom from many of the negative states of mind that once precluded them from wanting a longer life.

Finances or the lack of financial backing would have been a reason to fear living longer. After all, finances are required to obtain a pleasant life. Shelter, food, clothing, and the like are necessities; as are enjoyment, holidays and day to day pleasant happenings. Without financial backing would come a cessation of those things that make living enjoyable, so to speak.

However, our dearest is now realising that along with backwards aging comes the ability to create those opportunities to make life comfortable. For those who do not have the means to provide the finances to last the extra years of life that freedom from fear will bring, will create the means by which those necessary finances can be forthcoming.

That is right, Dear Hearts, you will have the wherewithal to provide for yourself the means of support needed.

Not only will you choose to create the opportunities for financial means, you will also enjoy the stability and creative endeavours that will be forthcoming. This is a guarantee, Dear Ones:

“ For those who choose freedom from fear will come the means necessary to provide the financial support needed for the extra years of life.

Many Blessings to All

Working Past Retirement

Age

ON **DECEMBER 6, 2020**

Our Dear Heart Keith is of the opinion that life was not meant to get easier as he aged, and yet, Dear Ones, this is precisely what is happening for him. However, he also did not expect to be working past retirement age, and yet this is precisely what is happening.

Albeit a welcome condition, our Dear Heart does not like the prospect of study. For you see, Dear Ones, our Dear Heart Keith represents a working environment that challenges, indeed it does. It not only holds constant challenges it also requires our Dear Heart to remain updated with the latest information. Herein lies yet another challenge.

Who likes study? Some raise their hands, whilst others moan under the weight.

Our Dear Heart Keith is one who moans, indeed it is so. However, this will change as he ventures forward into the realm of study once again. He will be successful. And why will he be successful?

He will be successful, Dear Hearts, because this is the guarantee we offer.

Should you be desirous of backwards aging, which will offer more years of life, then you must have the financial backing, as we have stated in our **previous writing**, to support yourself.

Yes, Dear Ones, we guarantee the future finances of support if you are desirous of ridding yourself of the fears that restrict you to aging, ill health and a premature death, indeed.

Whatever means are necessary will be offered to you inspirationally, so to speak.
Whatever means of employment, work, capacity of involvement in gainfully supporting yourself will be offered to you inspirationally.

Do not fear the consequences, but, open yourself to the opportunities that will present. They are, and will be appropriate for you.

Many Blessings to All
